

Cleartech Portal 2021.1 Upgrade

As part of an upgrade, an update for the Cleartech Portal to Version 2021.1 will be released by **7 February 2021**. No downtime is expected.

1. Block Trade

External Trade ID may now be made mandatory per broker firm upon request.

Improve the validation for strip trades.

2. Risk Manager

Improve the risk assessment of omnibus accounts.

Enable the reversal of risk assessment for trades rejected by other issues irrelevant to risk limits.

3. Options Pricer

The source of the closing prices for Options Pricer Function is now updated.

If you encounter any issues, you can reach EEX Asia Market Operations at **+65 6206 9828** or via email at marketops@eexasia.com.

Refreshing your page (Ctrl+F5) or logging out and back in prior to use is recommended. Thank you for your continued support.
